-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 21 September 2006.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

### ***Status Of Claims***

1. This Office Action is in response to the preliminary amendment received 9/21/2006 in which Applicant lists claims 2-14 as being original, claims 1 and 15 as being currently amended, and claim 16 as being new. It is interpreted by the examiner that claims 1-16 are pending.

### ***Election/Restrictions***

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 2-6 and 8, drawn to a circularly polarizing plate including specifics of the absorbing polarizer birefringent material.

Group II, claim(s) 7, drawn to a circularly polarizing plate including specifics of how the absorbing polarizer is manufactured.

Group III, claim(s) 9-11, drawn to a circularly polarizing plate including specifics of the quarter wave plate.

Group IV, claim(s) 12, drawn to a circularly polarizing plate including specifics of how the absorbing polarizer and the quarter wave plate are fixed together.

Group V, claim(s) 13, drawn to specifics of the transmission of the circularly polarizing plate.

3. Claim 1 links Groups I-V. Claims 14-16 will be examined along with any of the elected groups.

4. The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Claim 1 is anticipated by or obvious over Ito et al., U.S. Patent Application Publication Number 2003/0137633 A1 (of record) or the "Y" references cited in the international search report (of record). Consequently, the special technical feature which links claims 2-16 does not provide a contribution over the prior art, so unity of invention is lacking.

Each of the listed Groups I-V has special technical features not required for the other groups. The special technical features exclusive to each group are listed above in the listing of the groups.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. A telephone call was made to Nicolas Seckel (44,373) on 1/16/2009 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does

not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

***Conclusion***

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to DEREK S. CHAPEL whose telephone number is (571)272-8042. The examiner can normally be reached on M-F 8:30am-5:00pm.
